

Kara Vita

Description:

Kara Vita delivers the world's finest clinical skincare products by combining patented nanotechnology with pure, pharmaceutical-grade bioactives and actives. Our products improve lives with unsurpassed purity, penetration, and potency.

Now, all women can experience the difference products created to pharmaceutical standards using the purest ingredients and industry-leading nanotechnology can bring to skin without the time or expense of visiting a dermatologist, aesthetician or medi-spa.

Kara Vita uses patented, all natural nanotechnology (Lyphazome) to time-release ingredients within deeper epidermal layers than traditional skincare products which treat only the skin's surface.

But beware: not all nanospheres are created equal, nor do they produce the same quality results as our perfectly sized nanospheres--1/50th the size of a human skin cell! We have more than 14 years of research and development behind our products.

We guarantee that most users will see results in two weeks. If you purchase and consistently use any Kara Vita product and find that you do not see an improvement to your skin within the first 30 days, we'll replace the product with one that better meets your needs, or refund your payment!

Not in the Oklahoma City area to experience a free in-home demonstration of our fabulous products? I can send you samples depending on your skin type:

(1) Normal/Combination (mostly healthy and even, with some dry areas or T-zone shine); (2) Dry or Sensitive (Dehydrated, perhaps red, rough, flaky, tight, itchy, or sore); (3) Oily or Problematic (shiny, greasy and slick with blemishes). We also have an acne treatment system.

Want more? Enjoy a Kara Vita career! Experience unlimited earning potential, a flexible schedule, no inventory, no deliveries, and the rewards of diamonds, cruises, and travel for the satisfaction of knowing you're making a beautiful difference in the lives you touch every day! It's an awesome home-bas
